Abstract (English version)

Objective – This study aims to (1) explain the contribution of nazir to the effectiveness of entrepreneurship-based waqf management and (2) map the trends, thematic evolution and position of nazir in the entrepreneurship-based waqf research landscape during the period 2015-2025.

Methodology – This research uses the Systematic Literature Review (SLR) method using PRISMA framework and bibliometric analysis using Visviewer and Biblioshiny to see the performance analysis, science mapping, and thematic evolution of Scopus indexed publications (2015-2025).

Research Results – The results indicate that the nazir plays a role as manager and designer of financing schemes for entrepreneurship-based waqf, ranging from utilization of cash waqf, financing the agricultural sector and MSMEs to social entrepreneurship models with effectiveness that strongly influenced by the quality of the nazir, professionalism, and good governance practices. The bibliometric analysis also shows the growth of publications and the diversity of waqf themes, but the role of nazir does not appear to be the main focus of studies explicitly in the management and governance cluster.

Limitations–The limitations of this study lie in its reliance on a single Scopus database, a review period of only 10 years (2015-2025), limited document types with open access and only English articles. The approach relied on literature review only, thus not showing the current dynamics in the operation and capacity of the nazir.

Keywords:

Entrepreneurship-based waqf; nazir role; waqf management; waqf governance.

Riwayat Artikel:
Submit: 04 April 2022
Revisi: 5 Mei 2022, 10 Mei 2022
Publish: 29 Mei 2022

Practical Implications – These findings provides a basis for regulator, waqf institutions and nazir associations in designing competency standards, capacity building programs, and governance models that position nazir as professional managers in mangaing waqf assets productively.

Abstrak (versi bahasa)

Tujuan—Penelitian ini bertujuan (1) menjelaskan kontribusi nazir terhadap efektivitas manajemen wakaf berbasis kewirausahaan dan (2) memetakan tren, struktur tematik, serta posisi nazir dalam lanskap penelitian wakaf berbasis kewirausahaan selama periode 2015—2025.

Metode – Penelitian ini menggunakan metode *Systematic Literature Review* (SLR) menggunakan kerangka PRISMA serta analisis bibliometrik menggunakan Vosviewer dan Biblioshiny untuk melihat *perfomance analysis, science mapping, dan thematic evolution* atas publikasi terindeks Scopus (2015—2025)

Hasil Penelitian—Hasil penelitian mengindikasikan bahwa nazir berperan sebagai pengelola dan perancang skema pembiayaan bagi wakaf berbasis kewirausahaan, mulai dari pemanfaatan *cash waqf*, pembiayaan sektor pertanian dan UMKM hingga *model social entrepreneurship* dengan efektivitas yang sangat dipengaruhi oleh kualitas nazir, profesionalisme, dan praktik *good governance*. Analisis bibliometrik pula menampilkan pertumbuhan publikasi dan keragaman tema wakaf, namun peran nazir tidak terlihat sebagai fokus utama kajian secara eksplisit dalam klaster manajemen dan tata kelola.

Keterbatasan—Keterbatasan penelitian ini terletak pada ketergantungan pada satu *database* Scopus, periode kajian hanya 10 tahun (2015—2025), jenis dokumen terbatas dengan *open access* dan hanya artikel berbahasa Inggris. Pendekatan tertumpu hanya pada kajian literatur saja sehingga tidak menunjukkan dinamika terkini dalam operasional dan kapasitas nazir.

Implikasi Praktis—Temuan ini memberikan dasar bagi regulator, lembaga wakaf, dan asosiasi nazir dalam merancang standar kompetensi, program penguatan kapasitas, dan model tata kelola yang menempatkan nazir sebagai manajer profesional dalam mengelola aset wakaf secara produktif.

Keywords:

Wakaf berbasis kewirausahaan; peran nazir; manajemen wakaf; tata kelola wakaf .
