The topic is interesting but the paper requires significant improvement. The rationale needs to be more developed in terms of issues of halal tourism development (more studies cited, statistics provided etc) and the aim needs to be clarified . Certainly, some discussion on the economic conditions in Aceh or sustainable economic growth in tourism and it's importance in Islam should be considered. There needs to be more literature review before discussing the proposed model - at the moment, there is very little literature review.

The methodology also needs further elaboration - what were the direct observations about? what was the focus of the interviews? What were the limitations of this methodology etc. The framework of research concept also requires further explanation.

The Results and Discussion needs restructuring in some parts for a better flow of work and requires a clearer detailed explanation in other parts. The model for promoting community economic growth in Aceh has not been discussed thoroughly .When developing a new model all components and terms need to be explained - this has not been done in this case.Terms like Masalahah, Dharurriyah, Tashniyah need to be explained in the context of the model. The discussion on economic growth should be elaborated as that was part of the aim of the paper.

Comments to the Corresponding Author

This study has potential contribution;however, the authors need to explicitly explain it in the introduction and discussion part. The reason why Aceh is so important in this study? why not Indonesia as a whole? please explain it more. This study discussed about Halal tourism attributes such as hospitality, halal food, amenity and etc., However, the authors need to discuss them in the literature review or in the introduction part. The authors also have explained the halal tourism model in the context of integrated tourism development; However, the authors have not discussed about it yet in the introduction part. There are some recent publications on Halal tourism that might be beneficial for this study such as

Suhartanto, D., Dean, D., Wibisono, N., Lu, C. Y. and Amin, H. (2021), "Millennial loyalty in Halal tourism: a destination-based analysis", *Current Issues in Tourism*, pp. 1-14.

Sofyan, A. S., Abror, A., Putra, T. W., Muslihati, M., Sofyan, S., Sirajuddin, S., Katman, M. N. and Darussalam, A. Z. (2021), "Crisis and disaster management for halal tourism: a systematic review", *Tourism Review*, Vol. ahead-of-print No. ahead-of-print.

Abror, A., Patrisia, D., Engriani, Y., Omar, M. W., Wardi, Y., Noor, N. M. B. M., Sabir Ahmad, S. S. and Najib, M. (2021), "Perceived risk and tourist's trust: the roles of perceived value and religiosity", *Journal of Islamic Marketing*, Vol. ahead-of-print No. ahead-of-print.

Wardi, Y., Trinanda, O. and Abror, A. (2021), "Modelling halal restaurant's brand image and customer's revisit intention", *Journal of Islamic Marketing*, Vol. ahead-of-print No. ahead-of-print.

In the methodology part, the authors explained that this study used expert system; However, the authors need to explain why this study used this method? any advantages or disadvantages of this method? How do you choose the participant in your research? are they representative for your study? please explain it more details.

The authors also explained about swot analysis in the methodology; however, I could not find the swot matrix or explanation about that in the discussion.
