Dear IJAL Editorial Board

Thank you for the information and a pleasant decision. We are currently revising the paper according to the reviewers' comments and we will resubmit it to the editorial board on time.

Regarding IJAL's new policy, let us know about the article processing charge (APC). We understand that the APC is essential and the application of the APC is usual in publishing articles. However, referring to the email we received (see attachments), the APC policy applies since May 2021, while we submit this manuscript on February 23, 2021 (see attachments). Does APC also apply to our manuscripts?

We appreciate the IJAL Editorial Board's policy and thank you for the response.

Best regards

Manuscript Number: 34-23975-51509-1 SM
Title: The Dehumanizing Metaphors in the Culture of Acehnese in Indonesia

Dear Jarjani Usman, Yunisrina Qismullah Yusuf

Thank you for submitting your manuscript to the Indonesian Journal of Applied Linguistics and your patience in waiting for the reviews.

I am glad to inform you that your manuscript is considered to be published in IJAL. We have determined that there are several points to be revised. You can find the reviewer reports below. In addition, there is one Ms. Word file with comments that should help you understand where the reader has questions.

For editing purposes, we encourage you to re-use the file with the reviewer's comments and use different font colors to display the revised parts. We remind you to write your name(s), institution name(s) and address, and one email for correspondence. In the abstract, please write 3-6 keywords and write them in an alphabetical order. Please add five words for subject indexing. We found that some of the citations did not appear in the reference list so please also fix this. Please note that your manuscript should be between 5000-7000 words including references.

We expect you to respond to this email with the revised manuscript by 16th September 2020.

Thank you.
Kind regards,
Erwin Rahayu Saputra
Associate Editor

Reviewer 1:
This research is very interesting and useful in many aspects, however there are major issues with English language used throughout the research. Please consider having a proofreader and editor who can work together with you.

Reviewer 2:
I appreciate the author(s)' efforts to disseminate local values and knowledge to international readership. The manuscript is well articulated and straightforward. However, there is still room for improvement:
1. The discussion would be more contextual had it compared the findings to other similar studies.
2. The term "in-animated thing" should be changed to "inanimate entity".
