Dear Assoc. Prof muhibbuthabry

We thank you for the submission of your manuscript. The peer review process of your manuscript has now been completed and we have reached a decision regarding your submission.

At present, your manuscript requires minor revisions to address the concerns of the reviewers. Their comments are attached to the email and/or to the bottom of this letter. If not, for your convenience log onto your profile to view the reviewers' comments.

Please include with your revised submission an itemised, point-by-point response to the reviewers which details the changes made. The revised manuscript should be submitted by 26-Sep-22; if you anticipate that you will be unable to meet this deadline, please notify the Editorial Office.

As a member of the Committee on Publication Ethics, we encourage your participation in assessing your Similarity Check Report in your journals' personalised manuscript section. Proceed to rewrite the paraphrased text or to introduce citations and acknowledgements as needed. Our assessment revealed:

Minor overlap of concern, author to address during revisions.

Below my signature, you will find steps to resubmit your revised manuscript. If you need any assistance, kindly contact the Editorial Office at [submissions@hts.org.za](mailto:submissions@hts.org.za) with any questions or concerns.

We look forward to receiving the revised manuscript.

Yours sincerely,

Dr Chisale

### Frequently Asked Question

How do I view the reviewer comments, after the formal peer review, if the Editor-in-Chief provided feedback regarding my article?

\*\*\*\*\*

The editor should send you an email stating all the revisions suggested during the formal peer review process. If you are advised to download the comments via your personalised journal section, follow these steps:

- Log into your personalised journal section in the journal.
- Under your 'User Home' click on the 'Author' or 'Active' link that will direct you to your 'Active Submissions Table'.
- Under the 'Status Column', click on 'In Review: Revisions Required'. This link takes you to the overview of the peer review process.
- The review page of your article provides information and documentation

under the heading 'Peer Review', and will identify files by reviewers, e.g. Reviewer B 19-123-1-RV.docx 2011-08-10. Download these documents to view the reviewer files.

\*\*\*\*\*  
 Frequently Asked Question: The Editor-in-Chief has requested revisions to my article. How do I submit my revised version?  
 \*\*\*\*\*

When the editor dealing with your submission chooses to ask for a revision, you will be notified by email. In the journal's personalised section your submission will move in the active table from the status 'In Review' to 'In Review: Revisions Required'.

When you prepare a revised version of your manuscript, it is essential that you carefully follow the instructions given in the editor's letter. Use the standard uploading format (as described for original submissions), but include both a clean copy of your manuscript and an annotated copy describing the changes you have made. Failure to do so will cause a delay in the review of your revision.

If references, tables, or figures are moved, added, or deleted during the revision process, renumber them to reflect such changes so that all tables, references (Vancouver Style) and figures are cited in numeric order. Images need only be uploaded if changes have been made to the figures since the previous version.

The annotated copy should have highlights on the changes (either by using the 'Track Changes' function in Word or by highlighting or underlining text) with comments in the text referring to the editor or reviewer query. Be sure when you upload your annotated version that the changes are clearly visible on the Word (.doc) file prior to resubmission.

You should create a point-by-point response letter specifying how you have addressed each of the editor's and reviewer's comments.

Using the review version of your manuscript, edit and revise your submission according to the reviewers' and editor's comments, and follow the steps:

- When you have addressed the comments and completed your revisions, log into your journals' personalised section and click on 'In Review: Revisions Required'.
- Under the 'Editor Decision', click on the bubble icon to view the editor's decision letter. If needed, you may view the original editor and reviewer comments by clicking files linked under the 'Review Round'.
- Once your revisions are correctly formatted and prepared, click on 'Browse' to begin uploading your revised manuscript from your desktop. Ensure to upload a clean, annotated and point-by-point version as part of your revised manuscript submission.

Once all three documents are uploaded, you will need to inform the editor via email of your resubmission. Click on the email icon and proceed to type and email the editor. Remember to press 'Send'.

Hi Dr. Muhibbuthabry

I just need to ask, when I looked at the revisions made by the authors, it is not clear what the authors are asking us to do. All we need to know is, does the asterisk hold any significance, i.e does the asterisk refer to anything, if so what, if not, why did you use an asterisk, and can it be removed? Below is an example of our query:

Source: An interview with participants (Primary data) \*CI 95%

Please could you clarify.

Kind regards  
Michele Menezies

Authors apologise to the editor for any misinterpretation of information in the manuscript.

1. Authors request the honourable editor to use the 95%CI sign for table 1 because the 95% CI sign in the table will have different results if the 95% CI is not used (it could be 90% CI or 99% CI).
2. Authors request the honourable editors to delete the sign 95% CI in table 3 as it does not have any meaning.

Authors would like to thank the editors for their attention.

Warm Greetings

Dr Muhibbuthabry
