- Number of minimum references for review paper is 50 references (and minimum 40 recent journal articles).

Dear Ms. Rika Yuliana

Congratulations! Your paper #1570752083 ('Best Practice Framework for Information Technology Security Governance in Indonesian Government') for the International Journal of Electrical and Computer Engineering (Submission Period: Apr-Sep 2021) has been ACCEPTED with minor revisions. The IJECE, ISSN 2088-8708, e-ISSN 2722-2578 (<http://ijece.iaescore.com>) is a SCOPUS indexed Journal, SNIP: 1.144; SJR: 0.368; CiteScore: 1.63; SJR & CiteScore Q2 on both of the Electrical & Electronics Engineering, and Computer Science). This journal is open to submission from scholars and experts in the wide areas of electrical, electronics, instrumentation, control, robotics, telecommunication, computer engineering, computer science, information system, information technology and informatics from the global world. The aim of this journal is to publish high-quality articles dedicated to all aspects of the latest outstanding developments in the field of electrical engineering. Its scope encompasses the applications of Telecommunication and Information Technology, Applied Computing and Computer, Instrumentation and Control, Electrical (Power) and Electronics Engineering.

Please make the necessary changes based on reviewers' comments and suggestions. The reviews are below or can be found at 1570752083. Please prepare your final camera ready paper (in MS Word file format) adheres every detail of the guide of authors (<http://iaescore.com/gfa/ijece.docx>), and check it for spelling/grammatical mistakes. Please explain more your proposed method/approach/platform/algorithm... clearly. Smoothly method explanation are the one of main reasons to judge article quality and your article potentially receives a high citation number. The goal of your camera ready paper is to describe NOVEL TECHNICAL RESULTS.

Please pay an attention to double check your final camera ready paper:

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS !! <http://iaescore.com/gfa/ijece.docx> and pay attention to the checklist for preparing your FINAL paper for publication: <http://ijece.iaescore.com/index.php/IJECE/about/editorialPolicies#custom-3>

- Please upload the revised paper within 8 weeks

Dear Ms. Rika Yuliana,

After careful review, your paper ID #1570752083, entitled "Best Practice Framework for Information Technology Security Governance in Indonesian Government" for "International Journal of Electrical and Computer Engineering" requires MAJOR REVISIONS. Method section is a crucial part of an article. Therefore, it should be presented sufficient clear and complete in every detail facilitating reproducibility by other scientists. For improving your paper, please read our published papers and cite them as appropriate. Search within <https://www.scopus.com/results/results.uri?sort=plf-f&src=s&sid=90160d3b2e0c1bf832c0e527ac637f1f&sot=a&sdt=a&sl=104&s=SOURCE-ID+%2821100258382%29+OR+SOURCE-ID+%2821100799500%29+OR+SOURCE-ID+%2821100826382%29+OR+SOURCE-ID+%2821100901206%29&origin=searchadvanced&editSaveSearch=&txGid=ffd3eec18a3e2b02c27d170a4e767665> in the upper left side by typing your keywords to find related papers. For your information, according to international regulations, similarity score of camera-ready paper must be less than 25%. Single author is PROHIBITED. The Editor(s) will check whether the final version has been performed and already address the reviewers' comments or not. Failing to do proper revision may lead to the rejection of your paper. You are asked to submit a revised full manuscript, according to the comment from reviewers. The Technical Program Committee (TPC) will check whether the revision already address the reviewers' comments. Failing to do proper revision may lead to the rejection of your paper.

For your information, International Journal of Electrical and Computer Engineering (IJECE) <http://ijece.iaescore.com>, ISSN 2088-8708, e-ISSN 2722-2578 is a SCOPUS indexed Journal, SNIP: 1.144; SJR: 0.368; CiteScore: 1.63; SJR & CiteScore Q2 on both of the Electrical & Electronics Engineering, and Computer Science). The IJECE is the official publication of the Institute of Advanced Engineering and Science (IAES). This journal is open to submission from scholars and experts in the wide areas of electrical, electronics, instrumentation, control, telecommunication and computer engineering from the global world.

The reviews are below or can be found at [1570752083](#), using your EDAS login name .

We would like your cooperation with the double check of your revised paper:

Activate Windows
Go to Settings to activate Windows

(1) PLEASE ADHERE STRICTLY to THE GUIDE OF AUTHORS <http://iaescore.com/gfa/ijece.docx>, and the checklist for preparing your FINAL paper for publication: <http://ijece.iaescore.com/index.php/IJECE/about/editorialPolicies#custom-3>

(2) It is mandatory to present a final paper with article structure in "IMRAD style" : 1. INTRODUCTION - 2. The Proposed Method/Algorithm/Procedure specifically designed (optional) - 3. METHOD - 4. RESULTS AND DISCUSSION – 5. CONCLUSION. See <http://iaescore.com/gfa/ijece.docx>

(3) Introduction section: explain the context of the study and state the precise objective. An Introduction should contain the following three parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. At least, 15 references (recently journal articles) are referred in this section.

(4) Method section: the presentation of the experimental methods should be clear and complete in every detail facilitating reproducibility by other scientists.

(5) Results and discussion section: The presentation of results should be simple and straightforward in style. This section report the most important findings, including results of statistical analyses as appropriate and comparisons to other research results. Results given in figures should not be repeated in tables. This is where the author(s) should explain in words what he/she/they discovered in the research. It should be clearly laid out and in a logical sequence. This section should be supported suitable references.

(6) (URGENT)!!! About Figures & Tables in your manuscript:

- Because tables and figures supplement the text, all tables and figures should be REFERENCED in the text. Authors MUST EXPLAIN what the reader should look for when using the table or figure. Focus only on the important point the reader should draw from them, and leave the details for the reader to examine on her own.
- Tables are to be presented with single horizontal line under: the table caption, the column headings and at the end of the table. All tables are produced by creating tables in MS Word. Captured tables are NOT allowed.
- All figures MUST in high quality images. Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!! See <http://iaescore.com/gfa/ijece.docx>

(7) Conclusion section: Summarize sentences the primary outcomes of the study in a paragraph. Are the claims in this section supported by the results, do they seem reasonable? Have the authors indicated how the results relate to expectations and to earlier research? Does the article support or contradict previous theories? Does the conclusion explain how the research has moved the body of scientific knowledge forward?

(8) Most importantly, please ensure the similarity score is less than 25%. You can refer to EDAS to see the similarity score of your paper. Any paper with a similarity score of more than 25% will be dropped. Please make sure your revised paper follow this rule. If the similarity score of final version is more than 25%, the TPC has the right to cancel the paper to be published at International Journal of Electrical and Computer Engineering (Submission Period: Apr-Sep 2021).

(9) Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list. Examples of in-

citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list. Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that...

... end of the line for my research [16].

Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!!

(10) Complete the biographies of authors as our template (include link to the authors' profiles, do not delete all icons in the template). It is mandatory!!

See <http://iaescore.com/gfa/ijece.docx>

Please upload the revised paper using EDAS on the "Revision" upload button within 4 weeks.

Thank you for your cooperation.

Best Regards,

Prof. nzw. dr hab. inz. Lech M. Grzesiak

- 7). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See <http://iaescore.com/gfa/ijece.docx>

Authors MUST upload your final manuscript through EDAS online system for similarity checking by EDAS. You also must submit your:

- final camera ready paper,
 - similarity checking report (by iThenticate or Turnitin software), and
 - payment evidence
- to: ijece@iaesjournal.com within 8 weeks.

I look forward for your response

Sincerely yours,
Prof. nzw. dr hab. inż. Lech M. Grzesiak,
Editor-in-Chief,
International Journal of Electrical and Computer Engineering (IJECE)
<http://ijece.iaescore.com>
email: ijece@iaesjournal.com

Online paper submission: <https://edas.info/N28423>

Below is the reviews on your papers:

For original research paper, there are four (4) types of novel technical results:

- 1) An algorithm;
- 2) A system construct: such as hardware design, software system, protocol, etc.; The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed;
- 3) A performance evaluation: obtained through analyses, simulation or measurements; or
- 4) A theory: consisting of a collection of theorems.

Your final camera ready paper should focus on:

- 1) Describing the results in sufficient details to establish their validity;
- 2) Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious; and
- 3) Identifying the significance of the results: what improvements and impact do they suggest.

Number of minimum references for original research paper is 25 references (and minimum 20 recently journal articles).

For review paper, the paper should present a critical, constructive analysis of the literature in a specific field through summary, classification, analysis and comparison. The function and goal of the review paper is:

- 1) to organize literature;
- 2) to evaluate literature;
- 3) to identify patterns and trends in the literature;
- 4) to synthesize literature; or
- 5) to identify research gaps and recommend new research areas.

The structure includes:

1. Title – in this case does not indicate that it is a review article.
2. Abstract – includes a description of subjects covered.
3. Introduction includes a description of context (paragraph 1-3), motivation for review (paragraph 4, sentence 1) and defines the focus (paragraph 4, sentences 2-3)
4. Body – structured by headings and subheadings
5. Conclusion – states the implications of the findings and identifies possible new research fields
6. References ("Literature Review") – organised by number in the order they were cited in the text.

Number of minimum references for review paper is 50 references (and minimum 40 recently journal articles).

For improving your paper, please read our published papers and cite them as appropriate. Search within <https://www.scopus.com/results/results.uri?sort=plf-f&src=s&sid=90160d3b2e0c1bf832c0e527ac637f1f&sot=a&sdt=a&sl=104&s=SOURCE-ID+%2821100258382%29+OR+SOURCE-ID+%2821100799500%29+OR+SOURCE-ID+%2821100826382%29+OR+SOURCE-ID+%2821100901206%29&origin=searchadvanced&editSaveSearch=&txGid=ffd3eec18a3e2b02c27d170a4e767665> in the upper left side by typing your

keywords to find related papers. For your information, according to international regulations, similarity score of camera-ready paper must be less than 25%. Single author is PROHIBITED. The Editor(s) will check whether the final version has been performed and already address the reviewers' comments or not. Failing to do proper revision may lead to the delays for publication.

In order to cover part of the event cost, each accepted paper will be charged: USD 295.

This article publication is to support the cost of wide open access dissemination of research results, to manage the various costs associated with handling and editing of the submitted manuscripts, and the Journal management and publication in general, the authors or the author's institution is requested to pay a publication fee for each article accepted. The USD 295 fee covers the standard eight (8) pages manuscript. For every additional page an extra fee of USD 50 per page will be charged. We really appreciate for collaboration papers, and are not appreciate papers with a single (sole) author. Paper with a single author is charged twice of the above fee (USD 590), and if any published manuscript over 8 pages will incur extra charges USD 100 per page.

The payment should be made by bank transfer (T/T):

Bank Account name (please be exact)/Beneficiary: TOLE SUTIKNO
Bank Name: Bank Syariah Indonesia (PT Bank Syariah Indonesia Tbk)

Dear Prof. nzw. dr hab. inz. Lech M. Grzesiak,

Together with this email, we would like to send you our final camera-ready paper, similarity checking report, and proof of payment. We have addressed all parts of this original research paper according to your comments and suggestions. If there are any mistakes whatsoever, please let us know. We would be happy to revise again. I look forward to hearing from you. Thank you very much for the help and support given to us.

Best regards,

Rika Yuliana and Zainal Arifin Hasibuan

Dear Authors,

Hello, how are you?

We hope this email reaches you well. We wish you very well

We are glad to inform you that your paper is in the layout stage for possible publication in the forthcoming issue of this journal. Your cooperation for final checking and/or updating your paper is required.

Please find the attached file (including comments and/or marked parts) to take further actions.

Please revise in the file only and don't make another file. Kindly submit your updated paper maximal June 13, 2022 by replying to this email.

Please note that this email is only assigned for layout and editing purposes. For other communication purposes, reach us through the principal contact of the journal.

Your cooperation is highly appreciated. Thank you

Kind Regards,

Azidanti Saufi
